

Network design, infrastructure, and cybersecurity for organizations that cannot afford to be down.

Texas-based value-added reseller, founded 2012. Vendor-neutral. Engineer-led.

/ 01 THREE DISCIPLINES

Infrastructure

Compute and storage you can build on and recover from.

- Compute, servers and HCI
- All-flash and object storage
- Backup and immutable DR
- Data center design
- Virtualization and VDI

Cybersecurity

Defense, detection, and response across the whole stack.

- Network and data security
- Endpoint, identity and access
- SOC operations and monitoring
- Red and blue team services
- Audit and compliance support

Connectivity

The links between sites, clouds, and carriers.

- Enterprise networking and SD-WAN
- Wholesale fiber (DIA, Ethernet, Wavelengths)
- Dark fiber and CWDM/DWDM
- Observability and monitoring
- Voice (VoIP, Cellular)
